SEXUAL ORIENTATION

“

Working with the DEIC has given me a chance to develop leadership skills while also working with a group of well-rounded individuals. We have accomplished so much from spreading awareness on diverse topics to ensuring that diversity and inclusivity are properly represented throughout any events. -**Christopher Romiluyi** (DEIC Member)

”

THIS YEAR'S DEMOGRAPHICS

This year in UGA MSF, we expanded our diversity and inclusion efforts. A committee of individuals was developed to encourage equal representation for minority groups coming into UGA MSF. With these advancements, we improved representation in leadership positions and reached out to minority groups to ensure equal opportunity. We will continue to strive for progress as the years come.

IMPACTS MADE GLOBALLY

\$200,000+

Our **NET WORTH** contributed to our efforts around the world helping countries that needed it most in times of need, disaster, and war regardless of any political, religious, or cultural background.

OPPORTUNITIES & ACHIEVEMENTS

GUEST SPEAKERS

Since COVID-19 started to slow this year, UGA MSF was able to provide both virtual and in-person shadowing hours to its members. This included health care professionals who had obtained an MD, DO, PA-C, DNP, SLP, Ph.D., MPH, or DDS.

EDUCATIONAL PANELS/PRESENTATIONS

Due to the controversial and complex nature of healthcare, it is important for members to be aware and develop their own opinion on these issues before going into the field themselves. The purpose of health-related presentations, debates, and panel discussions is to present the circumstances and allow students to produce a perspective and hear others'.

HEALTHCARE TRAININGS/WORKSHOPS

To give students exposure to simple situations they might encounter as a healthcare professional, UGA MSF provided trainings in suturing or even CPR and professional workshops. The purpose of these was to prepare the students for their future and increase time in these environments improving their readiness for professional programs

SOCIAL EVENTS

Pre-health students typically have an extreme course load and extracurriculars on their plates. To ease this burden UGA MSF provided many social events ranging from hot chocolate socials with wish papers to yoga nights.

DEI EVENTS

Diversity and inclusion events were created to ensure all people felt heard in the organization and others could be exposed to many cultural

differences. For example, we held a Diwali celebration and even a Dia de Los Muertos event where students would be exposed to the traditional aspects of the celebrations and be able to partake themselves.

ST. MARY'S JOINT INTERNSHIP

UGA MSF was able to partner with St. Mary's to provide a joint internship program. This program allowed students to rotate through 20 different St. Mary's locations shadowing all different health care specialists in the field. Interns were required to submit weekly reports of experiences and were graded by healthcare professionals.

RESEARCH ASSISTANTSHIP PROGRAM

The research assistantship program provided help to students who were looking for research positions. The secretary was able to send endorsements to professors and provide the students with help finding open positions that spark their interests!

LOCAL VOLUNTEER EVENTS/DRIVES

A large part of UGA MSF is giving back to the local community through service projects. UGA MSF was able to partner with St. Mary's hospital, Innovative Healthcare Institute, Red Cross, UGA student service clubs, homeless shelters, local farms, food banks, elementary schools, and vaccine clinics, all for the underserved communities in Athens Clarke County.

LEADERSHIP TEAMS

Every opportunity provided to members could not have been done without the 11 teams that aided in creating these events and fundraisers. These leaders and their teams are the heart of the organization. We thank all of our team members for their hard work and support

LAMBERT HIGH SCHOOL MSF

This year, a Georgia high school, Lambert High school, created a sector of MSF with its own executive board. These students were able to attend UGA MSF events and partner with many events as well. LHS MSF is a branch under UGA MSF.

“ At Friends of MSF at UGA Inc., we don't just try to find ways for our members to become leaders for themselves, but we try so that they become leaders that open doors to opportunities for others. **-Simran Kaur Malhotra** (Founder, CEO, & Chairperson of the Board of Directors) ”

OUR FAMILY

UGA MSF is run by the executive board that is overseen by the Board of Directors, which is the legislative branch. The Executive Board oversees the events department, the social department, and the publicity department as an executive branch. The Diversity, Equity, & Inclusion Committee is the judicial branch of UGA MSF. This year, we also became a 501(c)(3) nonprofit.
